The afternoon courses: Mon-Fri, 14-18

The afternoon courses focus on the practical application of the language and are not mandatory. Through pronunciation and conversation exercises, language games, problem-based learning, and fun lectures in easy Icelandic you will learn the language in a varied way.

Evening Courses: Mon-Fri, 20-22

How about ending the day with a movie? In Icelandic of course. We turn the classroom into a movie theatre – popcorn included. Some people like to knit while watching a movie. If you don't know how to, don't worry we got you covered.
